Cataract Canyon

COLORADO RIVER & GREEN RIVER
CANYONLANDS NATIONAL PARK

Cataract Canyon, famous for its 15-mile stretch of major rapids, is located below the dramatic confluence of the Green and Colorado Rivers in the heart of Canyonlands National Park. Rafting through Cataract's rapids is a heart pounding experience, especially in early summer when river flows are highest. But this remarkable river trip is about more than rapids! From a river corridor of deep red rocks to backcountry vistas that stretch for hundreds of miles, the scenery is amazing! And because Canyonlands National Park is so far removed from civilization, there is no light pollution to interfere with the grandeur of the star-filled night sky. Hike to pre-Puebloan granaries, ancient rock art panels, desert streams, and river overlooks. The minimum age is 10-12 years old, depending on river flows.

Important Information

We Provide

All of our expeditions are fully outfitted. We provide sleeping bag, foam pad, and ground cloth; tents and camp chairs; cots on deluxe motor trips; dry bags for clothing, cameras and personal items; all meals beginning with lunch the first day; plates, cups and utensils; water bottle; and Coast Guard approved life preservers. Round-trip transportation from the meeting place is included with all expeditions, except Upper and Lower Grand Canyon trips. Due to logistic considerations, we furnish only one-way transportation on these expeditions. Please refer to the schedule and rate insert for details, and don't hesitate to call us if you have any questions.

Food & Beverages

Delicious Dutch-oven dinners, sandwich bar lunches, and hearty camp breakfasts are prepared and served by the crew throughout the river trip. With a complement of fresh fruits, vegetables, whole grains and pasta dishes, non-meat eaters have a variety of foods from which to choose. We incorporate a variety of sustainable foods from local sources into our menu. Organic fair-trade coffee, tea, cocoa and fruit juice are served in camp. Cold water and lemonade are available throughout the day. We do not provide alcoholic beverages. If you wish to bring a small supply of preferred soda, beer, wine, or spirits, you may do so. We will be happy to try to accommodate special diet requests, if we are notified in advance.

Rafting Equipment

We offer both motorized and non-motorized rafting expeditions. On motorized rafts, the guide uses a small outboard engine to steer and propel the raft down the river. We have two types of motorized rafts: a sporty 22-foot "snout rig" for 6-8 passengers, and our expedition-style 37-foot "S-rig," which accommodates 12-14 passengers. Non-motorized expeditions are conducted in 18-foot "oar-powered rafts" that are rowed by a guide with 3-6 passengers per-raft. On a "paddle raft," each person has a paddle and helps maneuver the raft down river. There are usually 6-8 paddlers per-raft, including the guide. On some trips, one-person and two-person inflatable kayaks are available for people who prefer doing to viewing!

Trip Planning Information

When we confirm your reservation, we will send you a comprehensive trip planning packet that includes a list of recommended clothing and equipment, as well as where to meet, how to get there, and where to stay before and/or after the rafting trip.

Discounts

We offer a 10% Group Discount for parties of 12 or more people traveling together. A special Youth Rate for children ages 8-20 is offered on the Desolation Canyon expedition. If you are eligible for both discounts, you may choose the rate that provides the best savings. Custom private trips are a specialty of our company. Please contact us for rates and availability.

Please contact our office to verify space availability on the trip of your choice. To finalize a reservation, we will need a per-person deposit of \$300.00 or 1/3 of the trip fare, whichever is less. We accept personal checks, money orders, Visa and Master Card for deposits and final payments.
